NEBULA

COLLECTION

600x1200mm | Matt

OUR PRODUCT SYSTEM IS DESIGNED TO CREATE COMPLETE AND COORDINATED SPACES.

A textured look designed to harmonise with contemporary living styles: Surround is created from the finest raw materials to evoke elegant and comfortable atmospheres imbued with naturalness, thanks to its strong sense of authenticity.

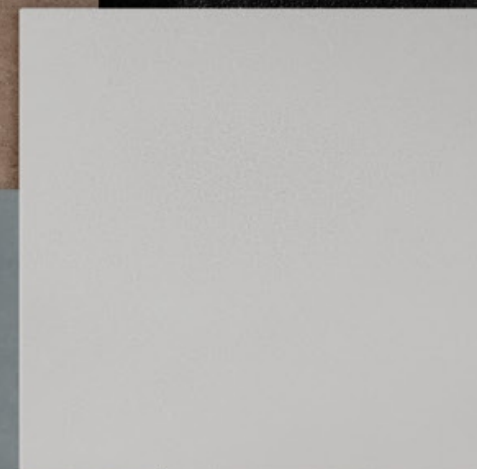

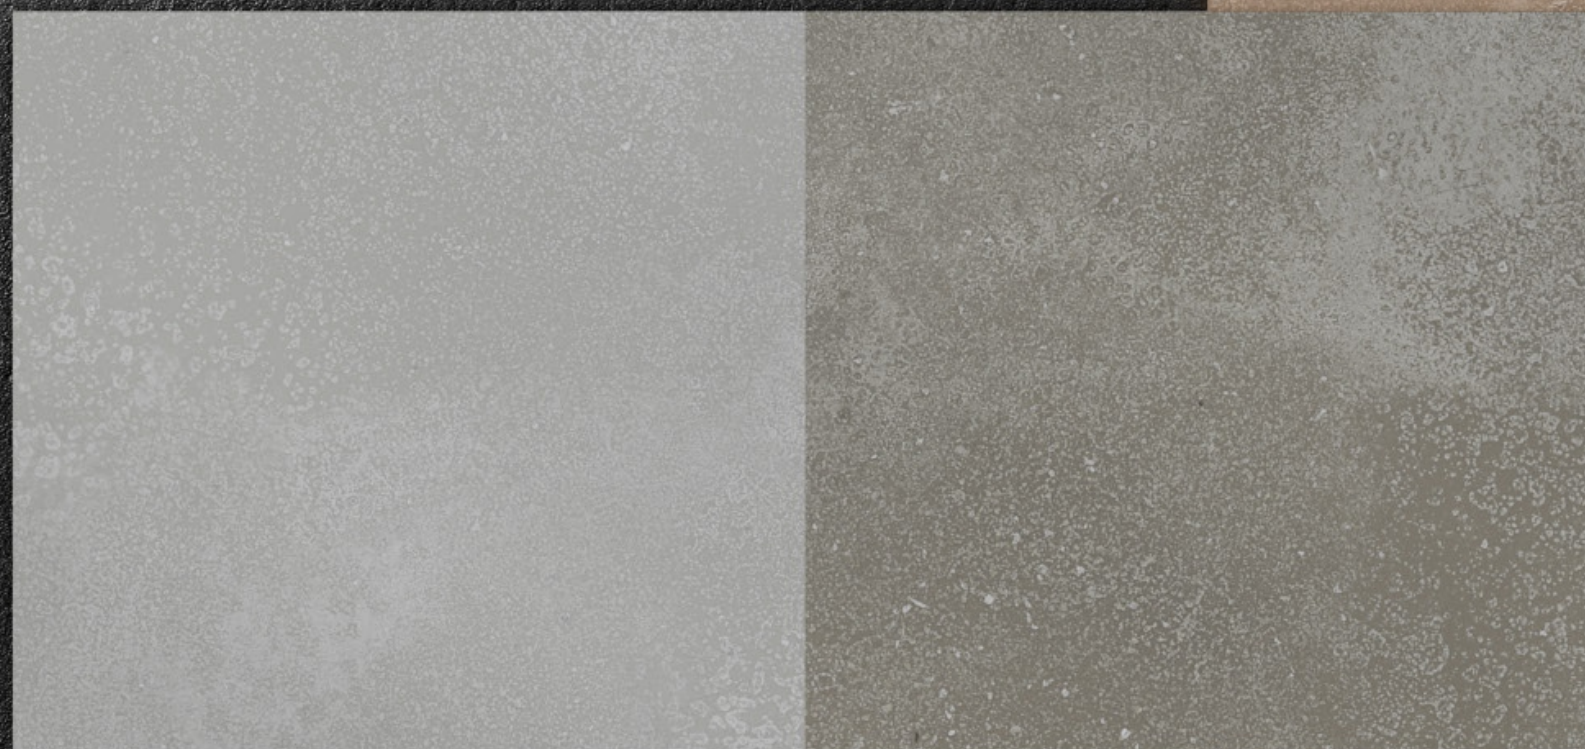

A collection modelled on a sedimentary stone rich in subtle veining and minute fossil inclusions, it proposes balanced and delicately shaded ceramic textures, punctuated with extremely realistic details.

Brace your spaces with the elegance of timeless and enchanting suaces that engage the visitors with their intriguing character.

Soothing textural nuances,
between fossil inclusions, geometries
and natural graphic details

SOLUTIONS FOR DESIGNING SPACES TO FULLY LIVE IN

Surround is an articulated ceramic collection offering five reassuring and modern nuances available in four surface finishes.

The strength of the collection is its multi-materiality: the ceramic versions in the range - porcelain stoneware, outdoor stoneware and monoporosa - are, in fact, designed for specific applications and are, at the same time, in perfect synergy with each other. The extensive decorative range offers ideas for customising any room, giving it strongly characterising elements. Finally, Surround incorporates PROTECT® antibacterial technology, for spaces with superior quality of life.

Metallica
