WATER SAVING

Our WCs have a special bowl structure and are specifically designed to flush with both lower (2.5/4 litre) and typical (3/6 litre) water volumes.

By using less water, these water saving WCs benefit you and the environment. All Home Decor standard height wall-hung frames come with dual flush function as standard in both 2.5/4 litre and 3/6 litre options.

SPACE SAVING

A wall-hung WC takes up less room than a conventional WC, and the concealed installation offers flexibility in confined spaces. The range of compact WCs have shorter projection, saving even more space.

ACCESSIBLE

These products are wheelchair accessible and provide enhanced convenience in the bathroom.

RIM-LESS TECHNOLOGY

Offering effortless cleaning and innovative, hygienic design. Home Decor's rimless WC pan eliminates the areas where germs gather and multiply, giving a superior level of hygiene.

WASHBASIN FORMS

Washbasins can be used with a pedestal as well as being wall-hung. Basins suitable for use with a counter top can be fitted in three alternative ways:

FISCHER

A simple, elegant installation system for use with wall-hung WCs. The fixings are hidden from sight by the use of internal ABS sleeves, creating a clean, smooth design.

Easy design Daily Comfort

To show concision, legerity and beauty of their strure in the
orm of lines, designers need to annex his torical details to
cultural lingering charm.

AIR GENERATOR

The air generator can be adjusted to be with air or without air according to your preferences.

The air generator can be adjusted to be with air or without air according to your preferences.

Compression Technology

$2\text{kg}=3\text{kg}?$

Water Conservation

33 %

It inosculates the advanced aerodynamic compression technology when you use it, the strength generated by each water flow inside the shower will be recycled by AGS unit and turn into energy absorbing, inhale the ambient air and combines it with water to achieve the air-water mixing effect. Benefit from this, under 2KG pressure, the bather can get the feeling like undering 3KG pressure, water conservation on is up to as amazing as 33%.
